COLD START DRILL

6

Load out: 2 rounds in the gun, 8 in a spare mag.

Starting at 10 yards, on the buzzer, draw from concealment and place 1 round in each of the top 3"x3" boxes. Then, on the move, perform a slide lock reload and place 6 rounds in the TIC logo area by the time you reach the 3 yard line. Once at the 3 yard line, place 1 round in each of the small triangles, using only your right hand and left hand, respectively.
